“The partnership between First Star at ASU and AFFCF [Arizona Friends of Foster Children Foundation] is valuable because it represents the ability to connect youth and families to resources that can have a significant impact on their future, both in terms of economic stability and emotional well-being,” Wise words from Erika Klotz, a postsecondary program coordinator for AFFCF.

You don't have to be a foster parent to make a difference in someone's life. Being a good influence on a child's life, whether that's a teacher, friend, etc can impact anyone for the better.
