9/2 - Fun Fact Monday

#MarvelousMondayFacts: Did you know jellyfish, crayfish, and starfish aren't actually a fish? Even though it's in their name, scientists have stated that they aren't, in fact, apart of any of the 30,000 fish species.

9/4 - Product/Service: **Maintain/Installation**

Here at Island Fish and Reef, we want to make sure you are completely happy and satisfied with your fish tank! Our employees are extremely talented and know how to handle any details that are thrown their way.

9/6 - Fun Fact Friday

#FunFactFriday: Groups of fish are called a school, the fish in the middle controls which direction the whole school goes in - how cool! 🐟🐟

9/9 - Product/Service:

Maintain/Installation

Aquarium maintenance is our specialty, we can handle all of your fish requests. Spend less time worrying about fixing your tank and spend more time looking at the beautiful fish and setups.

9/11 - Coral

While it's home to almost 25% of sea life, it only covers close to 1% of the ocean floor! Another misconception people have about coral reefs is that they are plants, while it's, in fact, a sea animal.

9/13 - Fun Fact Friday

#FunFactFriday: Seahorses are known to be the only fish that swims upright and are known to be the slowest fish species! They take on average an hour to travel 5 feet.

9/16 - Water Delivery

If you're in the process of moving and are concerned about your aquarium, don't worry - Island Fish and Reef have your back. Our vans can handle keeping your aquarium stay warm and clean!

9/18 - Fun Fact Wednesday

#FishWisdomWednesday: Only 1% of the ocean have been discovered, scientists say that there might be millions of new animals and fish waiting to be found!

9/20 - Fun Fact Friday

#FunFactFriday: Similar to Humans, Fish can taste, see, and touch as well as feel pain.

9/23 – Fun Fact Monday

#MarvelousMondayFacts: Fish is one of the main groups of animals. Because fish have gills, fins, and live in water makes them set apart from the other groups.

9/25 – Product/Service:

Maintain/Installation

For years, we have installed aquariums in commercial and residential properties without any issues. We design, install, stock, and maintain aquariums so you don't have to stress!

9/27 – Fun Fact Friday

#FunFactFriday: The largest fish is known as the whale shark, they are estimated to be 40 feet and weigh close to 42,000 pounds!

9/30 - Product/Service:

Maintain/Installation

Do you have cloudy water in your tank?
Give us a call and we'll fix that for you!
